

Error sending OBS: /CC044C/UnloadingRemark/s tateOfSealsC0440

Comprobar si la respuesta del AVI
(CC043C) tiene el segmento
<TransportEquipment>.

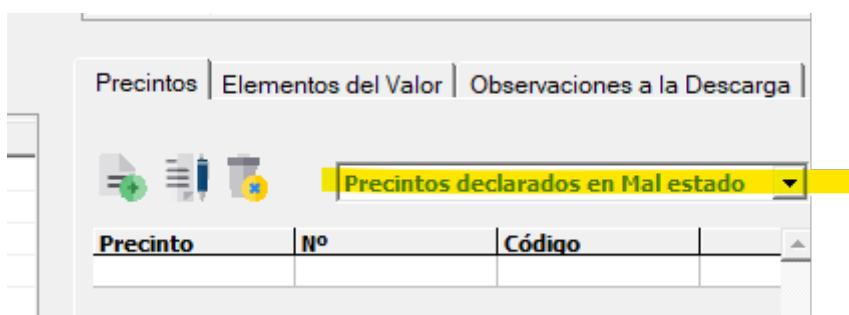

Si lo tiene, el tránsito tiene precintos, y faltan por indicarlos en el manifiesto

Si no lo tiene, el tránsito no tiene precintos, falta indicar en el manifiesto "No hay precintos"

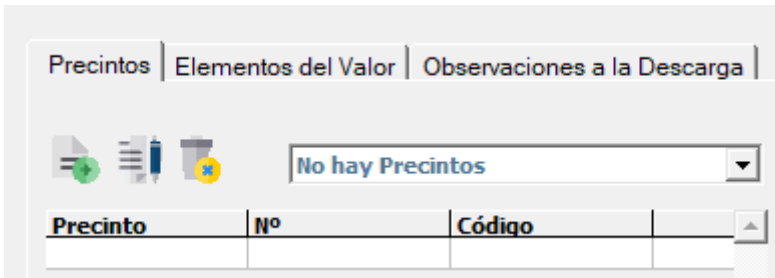

The seals are not indicated

image.png

If the T1 does not have a seal, you cannot indicate "Precintos declarados en Mal estado".

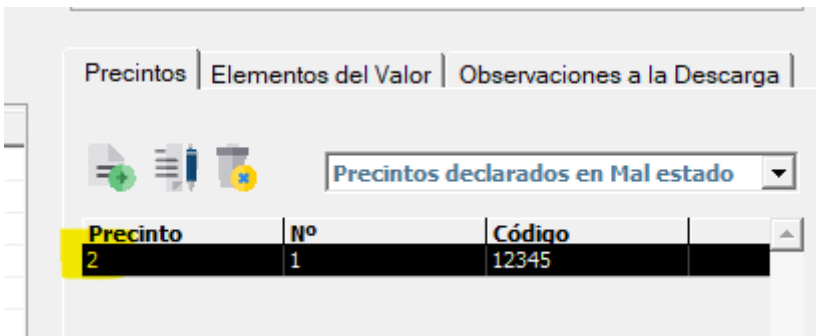

You have to indicate "No hay Precintos", this indicate that "There are not seals"

Review that if there is one seal, that in the box put Precinto 1.

If not, delete and add the seal again

Error StateOfSealsC0440 al enviar OBS:

Ver [procedimiento](#)

For the NITM2025009912. The transit ves that it has seals. As the seals are good, you have to

```

<TransportEquipment>
  <sequenceNumber>1</sequenceNumber>
  <numberOfSeals>1</numberOfSeals>
  <Seal>
    <sequenceNumber>1</sequenceNumber>
    <identifier>MRS05793347</identifier>
  </Seal>
  <GoodsReference>
    <sequenceNumber>1</sequenceNumber>
    <declarationGoodsItemNumber>1</declarationGoodsItemNumber>
  </GoodsReference>
</TransportEquipment>

```

For the NLTM2025009735 and NLTM2025009736, the person who issued the transit do, did not indicate that the transit had seals.

Therefore, in the manifest you have to indicate "No hay precintos"
