

Error sending OBS: ErrorCodeThere is an error in XML document (19,2)

image.png

La respuesta viene mal de la aduana holandesa.

Han tardado muchos días en corregir el error que daba el obs y volver a enviarlo, por eso la aduana holandesa devuelve ese error.

Que los de Holanda pregunten en qué estado está el tránsito para poder ponerlos nosotros así en el TVD

Si están en "unloading permission" / "permission to unload" poner los OBS en CV

Nos indicaron de la aduana holandesa, que ya no enviarán el mensaje de error vacío

Hi ,

The OBS is in error because the response sent to us by Dutch Customs is incorrect. This is the response they sent us. The error is empty.

Please contact Dutch Customs so they can tell you what the problem is and what the transit status is.

A regards
